EXPERIENCE

Founder · AuditPilot — 2025 — NOW

Building AuditPilot — an AI-assisted audit engagement platform for SOC 1 / SOC 2 firms, born from five years of audit pain — alongside Keelix, VoltForge, and a seven-agent automation org that works while I sleep.

Consultant · Coalfire — 2024 — 2025

Led SOC 1 and SOC 2 Type I and Type II examinations for mid-market clients, evaluating control design and operating effectiveness across trust services criteria — security, availability, confidentiality, and processing integrity Scoped engagements, executed fieldwork, and delivered final reports end-to-end while managing project budgets, timelines, and junior team members Assessed control environments spanning access management, change management, encryption, monitoring, incident response, and business continuity Presented findings and remediation guidance directly to client leadership, translating control gaps into prioritized action plans

Risk Advisory Associate → Senior Associate · Grant Thornton LLP — 2019 — 2023

Planned, organized, and executed SOC 1 and SOC 2 security risk assessments to enhance clients' IT security control environments, including business continuity programs, incident response procedures, access management, encryption, threat monitoring and more Led a team of professionals in the execution of cybersecurity risk advisory projects, ensuring the timely completion of high-quality deliverables Collaborated with clients to understand their specific business processes, control objectives, and regulatory requirements Developed and implemented effective written information security policies and procedures to secure protected and sensitive data and ensure information security and compliance with NIST CSF and ISO 27001 Worked alongside clients to develop an effective incident response plan Prepared comprehensive workpapers and documentation to support audit findings and recommendations Presented audit findings and recommendations to clients, facilitating discussions to address control deficiencies and enhance risk management Monitored project budgets, resource allocation, and timelines to ensure the successful and cost-effective delivery of services Reviewed and approved work performed by junior associates, providing constructive feedback and guidance for professional development Built and maintained strong client relationships, earning trust and fostering long-term partnerships

Personal goal pursuit — career break — 2023 MAR — SEP

Built out a Four Wheel Camper on a 2019 Ford Ranger and overlanded the US and Canada for seven months.

EDUCATION

University of Colorado Boulder · Leeds School of Business — 2015 — 2019

BSBA — dual emphasis in Information Management and Operations Management. Delta Sigma Pi; Alpha Delta Phi founding class.
